CARRER OBJECTIVE

A challenging position in an organization where my technical and analytical Skills would be utilized for the betterment of the organization.

PROFESSIONAL BACKGROUND

- I have relevant experience in Fusion Application as an Oracle BI Report Developer.
- My expertise lies in **BI Reporting** using **SQL BIP** Reports and **OTBI** Reports.
- I'm skilled in creating various types of report layouts and making layout adjustments.
- I've worked on Email **Bursting** concepts to SQL Reports.
- I've worked on calling **Run report** methods for calling report outputs from **SoapUI** and xml outputs integrated to SFDC screen.
- Engaged in integration to deliver payloads through **SoapUI** and **Rest APIs**.
- I've worked on user defined functions
- Scheduled job reports to FTP, EMAIL, and Content Server as per business requirements.
- Worked on Performance tuning on Custom SQL based Reports.
- I've worked on creation of Payment Extracts for payment based formatting column values.
- I've worked on implementation **prompts** using SQL (List of Values) and added them to Dashboards for Dropdown values.
- I have a strong knowledge of transaction processing and data flow in Fusion Tables.
- Experience in designing and implementing solutions for client in Oracle fusion Incentive Compensation Module.
- I've collaborated with Oracle Support to resolve product-related issues quickly.
- Involved in both **implementation** and **support** projects.
- I've hands on experience on Setup and Maintenance configuration right from business
- I've worked on migrating projects from the Test to Production domain.
- I regularly engage with **clients** to discuss requirements and implement scenarios.
- I've worked on sandbox modification i.e. Dashboard mapping in sandbox to get easy access from navigation.
